Patient receives image and shares image within PowerShare network:

You receive email notification images were shared. Images will be located under the Images tab. The patient can make a copy and/or download the images. They can also choose to share the images from the Images tab as well.

Selecting share images will initiate the sharing process if you wish to share the images with a physician. Please see the How to share images file on the webpage.

Patient receives image and makes a copy:

Selecting Copy will allow you to keep your images indefinitely instead of only 45 days.
